

Motivation Letter for Masters Program in Accounting

Dear Sir/Madam

I'm writing this motivation letter as an admission seeker in the Philadelphia University for the Master's in Accounting. I am basically a commerce graduate and working at one of the premium Accounting firm of the country.

It was a dream for me to pursue my Master's in Accounting from one of the leading Accounting Institution of the country and now when I look forward for the same then I find no better alternative than the Philadelphia University.

I'm extremely hopeful and motivated to be the part of the Institution and undertake my Master's from the honoured Institution, so that I can explore the more areas of Accounting as an ambitious professional of the field.

Thanks

Your Truly,
