

Motivation Letter for Masters

Dear Sir

I'm addressing this motivation letter to you with the purpose of conveying my strong will of securing admission in the Master's Accounting program of the Institution, which I want to take up as my next academic program. I have completed my graduate in Accounting stream last year from the University of Istanbul and since Accounting is a large field therefore I'm willing to pursue my Master's further from the esteemed Accounting Institution of Georgia. I'm extremely interested in the field of Accounting and Finance and want to reach the new dimensions in the same domain. I hope that my motivation for the program would get me considered for the admission purpose.

Thanking You

Your Sincerely
